- *Sign beside art that names Artist and method* or idea behind that piece of art.
- Public can *acquire puzzle* piece by each art piece that describes *Artist/Method/CACAC Center Website/ QR Code*.

- *QR Codes on signs* for people to use their phones and get more detailed info which *leads them back to CACAC website*.
- GPS Geo Cashing for people to go "tech" and find all the Art.
- A day set aside for *public contest* to find all the art and accumulate all the puzzle pieces at each art piece to put all together and get final clue to win a prize at the end.
- Prize is gotten back at the CACAC Center where there is a reception with the *actual artists*.
- *Picture/PR time. Tours of Art Center given. CACAC Center could give Field Trips* to see all the art during the year. *Corporate sponsors* would help pay the artists for their art.
