Subject: **Recommendations and Strategies for Reviewing Columbia Association's Charter and By-Laws**

The most recent actions by the Board of Directors of the Columbia Association(CA) to review the Charter and By-Laws of the organization were March 2004, when the sitting Board established the Governance Review Committee. The Governance Review Committee worked for six months, resulting in a presentation of a final report to the CA Board of Directors on 29 September 2004.

It has now been exactly ten years since the final report of the Governance Review Committee was presented to the sitting CA Board of Directors. The current CA Board of Directors has expressed an interest in initiating actions to review the existing versions, respectively, of CA's Charter and By-Laws.

Working closely with Sheri Fanaroff, CA's General Counsel, please find outlined below some recommendations and strategies that should serve to start the discussion with respect to initiating actions for a process in 2014/2015 to review CA's Charter and By-Laws.

Review Committee Composition

9 members, each with 1 vote, consisting of:

- 3 resident members selected by CA Board of Directors
- 2 resident members selected by the 10 Villages, as a group
- 2 members representing commercial property owners (not residents of Columbia)
- 1 member representing the Executive Committee of the Howard County Chamber of Commerce
- 1 member representing a business on CA assessed property (not a resident of Columbia)

Term of Review Committee

The term of the Review Committee should not exceed 12 months from the date that the CA Board of Directors approve formation of the committee and committee charge – all members of the committee must be selected within three months and the work of the committee must be completed within nine months thereafter.

During the nine-month period when the work of the committee is to be completed, the committee must hold a minimum of two public meetings to solicit the input from residents and other stakeholders in the Columbia community.

Mission of the Review Committee

Provide advisory input to CA Board of Directors with respect to recommended changes to CA's Charter and By-Laws.

For your consideration and a starting point for discussion, an illustrative list of several subject areas and examples for each are provided below.

1) Administrative matters requiring revision of documents

- Correction in Charter of name of current agent for service of process
- Revision of By-Laws regarding purposes for closing a meeting to track the same in the Maryland Homeowners Association Act
- Addition of language to Charter clarifying limitation of directors' personal liability for money damages in accordance with Maryland Corporation Law
- Clarification in line with limitation of Columbia Council meetings to one annual meeting and that Columbia Council Representatives' sole function is to elect CA directors
- Revision of By-Laws regarding inspection and copying of CA books and records to track Maryland Homeowners Association Act
- Other changes appropriate in view of any changes to law since last revision(s) to CA's Charter and By-Laws

- 2) Language as to responsibility/accountability of directors
 - Addition of language to Charter in line with language in By-Laws permitting removal of a director by CA Board
 - Addition of language to By-Laws permitting suspension of a director
- 3) Procedural Clarifications
 - Revision of By-Laws to clarify that directors are elected by Columbia Council Representatives remaining in office for the second year of their terms along with newly elected Columbia Council Representatives and not by the vote of outgoing Columbia Council Representatives
- 4) Other Possible Subject Areas
 - Additional of a eleventh voting member to the CA Board of Directors

Follow-up by CA Board of Directors

- 1) During the first six-month period following the receipt of the final report from the Review Committee, the CA Board of Directors must hold a minimum of two public meetings to receive input from residents and other stakeholders in the Columbia community on the content, including recommendations, in the final report.
- 2) Within twelve months of receipt of the final report from the Review Committee, the CA Board of Directors must state in a written document its intended actions in response to the content, including recommendations, in the final report.

Subject: Howard County Noise Ordinance

Introduction

This summary is in response to a CA Board request on noise regulations in Howard County. There are two sets of noise ordinances that govern Howard County. One set is written and regulated by the state of Maryland that is specific to Merriweather Post Pavilion. The other set is for all other areas of Howard County.

Howard County Noise Ordinance

The Howard County Noise Ordinance is located in the Howard County Code under Section 8.900. Noise standards are defined by decibel level. Section 8.900 references the state's COMAR26.02.03.01 to define decibel level as "a unit of measure equal to ten times the logarithm to the base ten of the ratio of the square of the sound pressure to the square of a standard reference pressure. For the purpose of this subtitle, 20 micropascals shall be the standard reference pressure."

The maximum allowable noise levels by land-use in the Howard County County Code refers to the state of Maryland's COMAR 26.02.03.03A (1). However, this section of the Maryland Code has been repealed and is now referenced in table 1 of COMAR 26.02.03.02. This discrepancy leaves ambiguity for law enforcement officials about the decibel levels that are permitted, since the correct code is not referenced. Corrective legislation has been drafted by the Howard County Council to refer to the new code in COMAR 26.02.03.02 and is anticipated to be filed early next term. The corrective legislation will take effect 61 days after it is passed and signed to become effective. Below is the table in COMAR 26.02.03.02 that will be referenced in future legislation that lists the maximum allowable decibel noise levels for receiving land use categories:

Day/Night	Industrial	Commercial	Residential
Day	75	67	65
Night	75	62	55

Daytime hours are defined as 7:00am to 10:00pm and nighttime hours are between 10:00pm and 7:00am. Noise measurements are taken at points on or within the property line of the receiving property boundary/zoning district. Sound level meters should meet or exceed the National Standards Institute or successor bodies.

Many exceptions exist to the noise regulations above that are stated in COMAR 26.02.03.02C (2), which are listed below:

- “(a) Household tools and portable appliances in normal usage during daytime hours;
- (b) Lawn care and snow removal equipment (daytime only) when used and maintained in accordance with the manufacturer's specifications;
- (c) Agricultural field machinery when used and maintained in accordance with manufacturer's specifications;
- (d) Blasting operations for demolition, construction, and mining or quarrying (daytime only);
- (e) Motor vehicles on public roads;
- (f) Aircraft and related airport operations at airports licensed by the Maryland Aviation Administration;
- (g) Boats on State waters or motor vehicles on State lands under the jurisdiction of the Department of Natural Resources;
- (h) Emergency operations;
- (i) Pile driving equipment during the daytime hours of 8 a.m. to 5 p.m.;
- (j) Sound except those sounds that are electronically amplified, between 7 a.m. and midnight, created by:
 - (i) Sporting events (except trap shooting, skeet shooting, or other target shooting);
 - (ii) Entertainment events; and
 - (iii) Other public gatherings operating under permit or permission of the appropriate local jurisdiction;
- (k) Rapid rail transit vehicles and railroads;
- (l) Construction and repair work on public property;
- (m) Air conditioning or heat pump equipment used to cool or heat housing on residential property; for this equipment, a person may not cause or permit noise levels which exceed 70 dBA for air conditioning equipment at receiving residential property and 75 dBA for heat pump equipment at receiving residential property;
- (n) Household pets on residential property that are maintained in accordance with local zoning requirements;
- (o) Except in Allegany, Anne Arundel, Baltimore City, Calvert, Charles, Garrett, Howard, Montgomery, St. Mary's, and Washington Counties, trap shooting, skeet shooting, or other target shooting between the hours of 9 a.m. and 10 p.m. on any range or other property of a shooting sports club that is chartered and in operation as of January 1, 2001;
- (p) Trash collection operations between the hours of 7 a.m. and 10 p.m.
- (q) Marina equipment used to move boats during the period from 7 am to 7 pm provided that the noise level does not exceed 80 dBA at 20 meters from the equipment.”

State of Maryland Noise Ordinance

In 2013, the Howard County state delegation introduced a bill that was later passed by the Maryland General Assembly that provided separate noise regulations for Merriweather Post Pavilion. House Bill 1514 (7) (I) (1) states for any outdoor concert venue with a capacity of over 15,000 people, that 95 decibels or lower between 9:00am and 11:00pm, and 55 decibels or

lower between 11:00pm and 11:30pm be permitted within a .25 mile radius of the venue. In areas outside .25 mile radius of the venue, the decibel levels need to be 72.5 decibels or lower between 9:00am and 11:00pm, and 55 decibels or lower between 11:00pm and 11:30pm. Note: electronic amplification at an outdoor concert venue with capacity for more than 15,000 people is not permitted between 11:30pm and 9:00am.
