

5/6 Presentation  
Columbia  
CG

May 7, 1965

FROM: James W. Rouse

. . . . .  
This has been a tremendously important week for Columbia, and I know how sacrificially everyone worked in bringing it off. It required a tremendous effort to prepare and assemble the material for our zoning hearing on Tuesday and our presentation to Connecticut General on Thursday. The results were deeply appreciated. The competence and professionalism that was demonstrated in the presentation was commented on many times in Hartford by the ranking officers of CG.

The fact that at our zoning hearing there was no opposition by anyone in Howard County is a powerful testimonial to the magnificent job everyone has performed over the past eighteen months.

We have many, many more hurdles before Columbia becomes a reality, but you have certainly done a big job in bringing it so successfully to the threshold on which we now stand.

Many, many thanks.

JAMES W. ROUSE
