Dear Milton & Michelle:

Just wanted you to know that The Village In Howard has AGAIN received support from CA. Through the Oakland Mills Community Association, we have just rented the Stevens Forest Neighborhood Center! The building allows us to have both office operations and space for meetings, small group activity and programs. While we just moved Saturday, it is looking like an excellent fit for our growing needs.

In addition to the excellent work of OM manager Sandy Cederbaum, your IT staff has also been helpful with cable installation. Each person we dealt with was pleasant, efficient and helped move the process along. We really received good customer service!

The Village really appreciates the partnership we have with CA. Your financial support, encouragement and now rental space are all contributing to our primary purpose of supporting older residents to remain in their homes. Many thanks for your ongoing support!

Sincerely,

Judith S. Pittman  
President, Board of Directors
