

Report from the CA Representatives to the Inner Arbor Trust Board of Directors
April 2018

The Inner Arbor Trust is preparing for its second season of presenting arts and culture to the community and, of course, planning for the next phases of park development.

A vibrant children's series, Chrysalis Kids, will be presented weekly in conjunction with Columbia Association and Howard County Recreation and Parks. Our first event is Milkshake on April 21. So far, more than 1000 people are attending and our major sponsor, Re-Think Water, is very happy.

On April 28, the Howard County Public School System Jazz Showcase will take place. We are delighted to be partnering with the school system in what will become an annual event.

So far, all of our partners are cross-promoting events and working well together.

Together with the Columbia Downtown Partnership, we are trying to bring more regional events to Columbia.

We have finalized a two-year contract with CoFestCo to assist with event production and promotion.

Bill Woodcock, Fundraising Chair, is planning strong community outreach, as well as a coordinated corporate drive.

Lin Eagan
Chair
